

Need to provide a better Internet experience for your guests?

Unsure of what option is best for you?

We have the answer 😊

- Our system works over your existing infrastructure and provides guaranteed WiFi access in every apartment or guest room.
- No need to re-cable, all we require is an working phone or tv point in each apartment or guest room.
- Cost effective deployment with minimal disruption.
- We are local technicians servicing our local community with over 40 years combined experience.

You may also qualify for the government small business initiative and claim an instant tax right off on this product.

Australian Government
Australian Taxation Office
